THE CONFESSION OF THE ORDINARY

A Memoir of a Beautiful Mind
Companion Edition

The short confession: the war with the mind, the truce, the eagle, the ground. A memoir in six movements - the outline of a life ordered into peace. This companion edition distills the essential architecture of The Beholder Project: the line between the creature that flies and the ordinary human who beholds it.
For the full ten-movement memoir, see “The Confession of the Ordinary - The Beholder: A Memoir of a Beautiful Mind”.

“I behold, therefore I am at peace.”
